

## SUPPLY OF ACTIVE FAULTS DATA

### GENERAL TERMS AND CONDITIONS

#### Terms of use

The Active Fault Database displayed on this website (Database) cannot be used for commercial purposes including, but not limited to, reselling and/or providing technical services based on the Database. You must acknowledge the Institute of Geological and Nuclear Sciences Limited (GNS) as the source of the Database in any publication or other public disclosure where you use or rely on the Database.

To credit the use of the database in publications, we recommend citation of the Active Faults Database paper:

Langridge, R.M., Ries, W.F., Litchfield, N.J., Villamor, P., Van Dissen, R.J., Rattenbury, M.S., Barrell, D.J.A., Heron, D.W., Haubrock, S., Townsend, D.B., Lee, J.A., Cox, S., Berryman, K.R., Nicol, A., Stirling, M. (2016). The New Zealand active faults database: NZAFD250. accepted to *New Zealand Journal of Geology and Geophysics* 59 (1)

#### Disclaimer

GNS does not warrant or represent that the Database is accurate, complete or fit for any particular purpose. GNS does not accept any responsibility for the use of or reliance on the Database and shall not be liable to any person on any ground for any loss, damage or expense arising from such use or reliance.

The map interface page of this website has a minimum scale limitation of 1:100,000. Contact GNS if you need more detailed spatial information.
